SECTION B

For all shipments of packaged materiel to the government, which includes either depot (DLA-direct) or DVD (customer-direct) shipments, both DoD linear and 2-D bar code markings are required on military shipping labels in accordance with MIL-STD-129, revision P, dated December 15, 2002. 2-D bar coding shall be in accordance with ISO/IEC 15438, ISO/IEC 15434 (ANSI MH10.8.3) and DoD 4500.9-R. MSL linear (code 3 of 9 or code 39) bar coding shall be in accordance with ISO/IEC 16388. MSL label stock quality shall meet MIL-PRF-61002. MSL bar code print quality shall meet ANSI MH10.8-2000 or ANSI X3.182-1990 (R2000) for applicable 2-D and/or linear bar codes. All DVD shipments shall meet additional linear bar coding requirements in DLAD 52.211-9008. When the contract/order omits any data element required to be bar-coded, the field shall be zero-filled. These requirements do not apply to delivery orders when the basic contract has not been modified to require MIL-STD-129P. If there are inconsistencies between the schedule and MIL-STD-129P, the schedule takes precedence.

A00E07 GENERAL INSTRUCTIONS (SEP 2003) DSCP

(Failure to agree to this provision will not effect an award decision for the solicited quantity.)

SPECIAL NOTICE: Based upon the Business Systems Modernization (BSM) being undertaken by DLA the DLA Pre-Award Contracting System (DPACS) has undergone an update. As a result, the DPACS identification numbers (IDs) assigned to the various FAR/DFARS/DLAD and local DSCP clauses/provisions have been renumbered.

Note: Please indicate whether you will accept an IDPO by choosing 'IDPO Option Accepted' or 'IDPO Option Declined' in the Indefinite Delivery Purchase Order/Term Option dropdown box of the Internet Quoting System (IQS) quote input screen.

The provisions/clauses included herein, whether in full text or by reference, apply to this solicitation in addition to any existing Federal Supply Schedule, Basic Ordering Agreement or Simplified Purchase Agreement, when applicable.

A complete copy of this announcement can be accessed at:
www.dscp.dla.mil/contract/idpol.htm

Note: Quoter should look for spaces or blank lines within the provisions/clauses that indicate that an input is required by the quoter. Failure to complete these fill-ins by render the quoter non-responsive to the solicitation and may preclude them from receiving an award.

- NOTICE TO ALL SUPPLIERS OF THE GENERAL & INDUSTRIAL DIRECTORATE OF DSCP WHO SUPPLY THE FOLLOWING STOCK GROUPINGS /CLASSES: FSG 62, FSC 6350

Provisions/clause that are incorporated by reference have the same force and effect as if they were incorporated in full text. The full text of the provision/clause can be found via the Internet. Refer to clause FAR 52.251-1, Solicitation Provisions Incorporated by Reference (DPACS ID # L52A01) and FAR 52.252-2, Clauses Incorporated By Reference (DPACS ID # I52A01), contained within this solicitation, for URL information. Text of provisions/clauses are also available through the Contracting Officer.

Acquisitions less than and/or equal to \$2500.00 will close in 5 days from the Issue date, rather than on the closing date stated in the following segment.

A00E12 NOTICE OF DISTRIBUTION TO CONTRACTOR OF AWARD DOCUMENT (SEP 2003) DSCP

For an award issued resulting from this solicitation, it will be the responsibility of the awardee to retrieve the award document from the DLA Procurement Gateway. No hard copy will be provided.

The source of each provision/clause can easily be identified by one of the following numbering schemes:

FAR - 52.XXX-XX
DFARS - 252.XXX-7XXX
DLAD - 52.XXX-9XXX
DSCP - 52.XXX-9IXX or 52.XXX-9PXX

Access to the DLA Procurement Gateway is through the Defense Automated Printing Service's web page at 'progate.daps.mil/home/'. Contractors will need to be registered to obtain the full benefit of the DLA Procurement Gateway, which includes e-mail notification of solicitations based on a user profile, e-mail notification of awards, and advanced search capabilities based on solicitation number, nomenclature, NSN, solicitation issue date, buyer code, etc.

L15E04 52.215-9I12 NOTICE: AUTOMATED BEST VALUE SYSTEM (ABVS) PROGRAM (DEC 1999) DSCP

(a) The Defense Logistics Agency (DLA) has developed the Automated Best Value System (ABVS), an automated system that collects and analyzes offerors' past performance history and assigns a numeric score. Under ABVS, contracting officers will not necessarily award contracts to offerors with the lowest evaluated price, but are encouraged instead to consider past performance and other factors and to exercise good judgment in awarding to firms whose offers represent the greatest value to the Government.

(b) An offeror's past performance is an indicator of performance risk and will be scored on the basis of past performance in the same Federal Supply Class (FSC) as the supplies being solicited. ABVS scores are calculated monthly,

remain in effect for the entire month, and are based on DLA consolidated performance history. There is an FSC score, which represents the offeror's DLA-wide performance for that FSC. There is also a DLA score, which reflects the offeror's overall performance for all FSCs at all DLA Inventory Control

Points (ICPs), i.e., Defense Supply Centers Philadelphia, Richmond and Columbus.

(c) To determine the ABVS score, the Government will use the following performance indicators: delinquencies, length of delinquencies, order rejections (contractor caused cancellations), product nonconformances, and packaging nonconformances. The delivery portion of the ABVS score will consist of all delinquencies (CLINs that have not been shipped

in their entirety by the CDD), and order rejections for the rating period preceding the most recent 60 days. The quality portion will consist of all contractor-caused product and packaging discrepancies for the rating period preceding the most recent 30 days. To allow for delays in posting data, the

delivery score will exclude the most recent 60 days and the quality score will exclude the most recent 30 days. There are

no grace periods in determining if a contract is delinquent.

(d) Negative performance data to be reflected in the ABVS score will be made available to Contractors through the DSCP General and Industrial (G & I) website. A Contractor may challenge any negative data it feels is inaccurate by submitting a challenge to the DSCP ABVS Administrator. To be considered, challenges must be accompanied by evidence that substantiates the claim (e.g., invoices, DD Form 250s, modifications.) The 'Center' field will identify the cognizant focal point for challenges. For those identified as

'DSCP', challenges must be sent to:

Defense Supply Center Philadelphia (DSCP)
ATTN: DSCP-PPA (ABVS)
700 Robbins Avenue
Philadelphia, PA 19111-5096

Phone: (215) 737-7844
FAX: (215) 737-7949

(e) ABVS scores are updated monthly. Though contractors may challenge negative data at any time, it is to the contractor's

advantage to challenge in a timely manner. Challenged data that has been investigated and validated prior to the next monthly ABVS update will be reflected in the new score. Challenges that are received before the end of the challenge period but are not resolved prior to the next monthly update will be flagged as challenged. Once the challenge is received, the ABVS score is flagged and will remain flagged until the challenge is resolved.

(1) When an ABVS score is flagged, the contractor reviewing ABVS data can see that its challenge has been received and is being investigated. The flag also alerts the contracting officer that certain data reflected in the offeror's score is being challenged and warrants further investigation by the contracting officer.

(2) When a discrepancy between the offeror's challenged data and the Government's data occurs, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in

the source selection process, and the contracting officer may make an award decision despite the existence of an unresolved challenge.

(f) An ABVS score does not determine an offeror's award eligibility, or technical acceptability, nor does it establish

or dictate a responsibility or nonresponsibility determination. The ABVS score used for evaluation will be that score in effect at the time offers are evaluated. There is no minimum volume of business required for a contractor to be scored. The contracting officer may consider the volume of

business on which the performance score is based as a measure of confidence in the score's indication of performance risk. A contractor with no performance history in the FSC will be given a score of 999.9, which will identify the contractor as a new offeror in that FSC. New offeror status will not be grounds for disqualification for award. New offerors may be considered more favorably than scored offerors with a poor performance record. Also, the desirability of expanding the supplier base and possible competition enhancement in future procurements will be considered in the source selection decision when new offerors are present.

(g) Contractor caused discrepancies or delinquencies are reflected in ABVS scores as an indicator of past performance. Repair, replacement, or reimbursement of quality and packaging

defects does not provide relief from negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

L17C01 52.217-9002 CONDITIONS FOR EVALUATION AND
ACCEPTANCE OF OFFERS FOR PART NUMBERED ITEMS (JUL 2002)
DLAD

(a) The product described in the acquisition identification description (AID) of this solicitation is that product which the Government has determined to be acceptable. All Offerors shall indicate below, or through an alternative means in an electronic quoting system, whether they are offering an 'exact product,' an 'alternate product' (which includes a 'previously reverse-engineered product'), a 'superceding part number,' or a 'previously-approved product;' and shall furnish the data required for whichever is applicable. (To determine which type of product to indicate, Offerors must refer to the criteria in subparagraphs (b)-(e) of this provision, respectively.) Any product offered must be either a product cited in the AID; or be physically, mechanically, electrically, and functionally interchangeable with a product cited in the AID, including additional requirements referred to in the AID, if any.

Exact Product - Applies to CLIN(s):

(Vendor Fill-in)

Alternate/Previously Reverse-Engineered Product - Applies to CLIN(s):

(Vendor Fill-in)

Superceding Part Number - Applies to CLIN(s):

(Vendor Fill-in)

Previously-Approved Product - Applies to CLIN(s):

(Vendor Fill-in)

(b) 'Exact product.'

(1) 'Exact product' means a product described by the name of an approved source and its corresponding part number, as currently cited in the AID; modified (if necessary) to conform to any additional requirements set forth in the AID; and manufactured by, or under the direction of, that approved source. If an Offeror indicates that an 'exact product' is being offered, the Offeror must meet one of the descriptions in subparagraphs (i)-(iv) below. (Any Offeror not meeting one of these descriptions is not considered to be offering 'exact product;' even though the item may be manufactured in accordance with the drawings and/or specifications of an approved source currently cited in the AID.)

(i) An approved source currently cited in the AID offering its corresponding part number as cited in the AID;

(ii) A dealer/distributor offering the product of an approved source that meets the description in subparagraph (i) above;

(iii) A manufacturer who (A) produces the offered item under the direction of an approved source currently cited in the AID; and (B) has authorization from that approved source to manufacture the item, identify it as that approved source's name and part number, and sell the item directly to the Government. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation to demonstrate such authorization.

(iv) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (iii) above. If requested by the Contracting Officer, the Offeror/Contractor must provide documentation that demonstrates such authorization.

(2) When the AID identifies the item being acquired as a critical safety item (CSI), offers of exact product will be evaluated in accordance with 52.211-9005.

(c) 'Alternate product.'

(1) The Offeror must indicate that an 'alternate product' is being offered if the Offeror is any one of the following:

(i) An Offeror who (A) manufactures the item for an approved source currently cited in the AID; and (B) does not have authorization from that approved source to manufacture the item, identify it as the approved source part number, and sell the item directly to the Government;

(ii) A dealer/distributor offering the product of a manufacturer that meets the description in subparagraph (i) above;

(iii) An Offeror of a previously reverse-engineered product that is not currently cited in the AID; or

(iv) Any other Offeror who does not meet the criteria in subparagraphs (b)(1), (d), or (e) of this provision.

(2) If an alternate product is offered, the Offeror shall furnish with its offer legible copies of all drawings, specifications, or other data necessary to clearly describe the characteristics and features of the alternate product being offered. Data submitted shall cover design, materials, performance, function, interchangeability, inspection and/or testing criteria, and other characteristics of the offered product. If the offered product is to be manufactured in accordance with data the Offeror has obtained from elsewhere within the Government, the Offeror shall either furnish the detailed data specified in this paragraph, or supply a description of the data package in its possession; i.e., basic data document and revision, the date the data was obtained and from whom (Government agency/activity). If the Offeror does not furnish the detailed data with its offer, the Contracting Officer will be unable to begin evaluation of the offered product until such time as the detailed data can be obtained from the Government agency/activity possessing the data. If the alternate product is a previously reverse-engineered product, the Offeror shall provide: traceability documentation to establish that the offered item represents the item specified in the AID (i.e., invoice from an approved source or submission of samples having markings of an approved source); number of samples that were examined; the process/logic used; raw data (measurements, lab reports, test results) used to prepare drawings or specifications for the offered item; any additional evidence that indicates the reverse-engineered item will function properly in the end item; and any evidence that life cycle/reliability considerations have been analyzed.

(3) In addition, the Offeror may be required to furnish data describing the 'exact product' cited in the AID. The data required from the Offeror depends on the level of technical data describing the exact product, if any, available to the Government. The possible levels of technical data the Government may have and the corresponding data submission requirements for Offerors are identified in subparagraphs (a)-(d) below. For the item(s) being acquired under this solicitation, the level of data in the Government's possession and the corresponding requirements for data submission are identified in the AID; or, if not specified in the AID, are as follows: [buyer insert (a), (b), (c), or (d), as applicable, if AID does not identify]. (If the level of data in the Government's possession and Offeror requirements for data submission are not identified in either the AID or in this subparagraph (c)(3), then subparagraph (a) below applies.)

(a) No data: This Agency has no data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.

(b) Adequate proprietary (i.e., limited rights) data: This Agency possesses adequate drawings and/or specifications for the exact product as cited in the AID, but such data are proprietary (i.e., limited rights) and shall be used only for evaluation purposes. The Offeror must furnish the data required in subparagraph (c)(2) of this provision, but is not required to submit data on the exact product.

(c) Inadequate data: This Agency does not have adequate data available for evaluating the acceptability of alternate products offered. In addition to the data required in subparagraph (c)(2) of this provision, the Offeror must furnish drawings and other data covering the design, materials, etc., of the exact product cited in the AID, sufficient to establish that the Offeror's product is equal to the product cited in the AID.

(d) Adequate catalog data: This is a commercial off the shelf item. Adequate catalog data are available at the contracting office to evaluate alternate offers. In addition to the data

required in subparagraph (c)(2) of this provision, the Offeror must furnish with its offer a commercially-acceptable cross reference list; or legible copies of all drawings, specifications or other data necessary to clearly describe the characteristics and features of the alternate product being offered, sufficient to establish that the Offeror's product is equal to the product cited in the AID. The Offeror is not required to submit data on the exact product.

(3) Except for indefinite delivery purchase orders (IDPOs), if this solicitation is automated (i.e., if the solicitation number begins with SPE; or begins with SP0 and contains 'T' or 'U' in the ninth position of the procurement instrument identification number (PIIN)), the Contracting Officer will not evaluate offers of alternate product (which includes offers of previously reverse-engineered product) for the current procurement. Instead, the Offeror shall submit a request to the location below for evaluation of the alternate product's technical acceptability for future procurements of the same item. The request for evaluation shall cite the National Stock Number (NSN) of the exact product and, as identified in this provision, include the applicable level of technical data on the alternate and exact products. All offers of alternate product will be handled in accordance with DLAD 17.7501(b)(4).

(i) For solicitation numbers beginning with SPE7 or SPE9; or beginning with SP0 and containing 'T' or 'U' in the ninth position of the PIIN:

Defense Supply Center Columbus
Directorate of Procurement
Alternate Offer Monitor, DSCC-PCA
3990 East Broad Street
Columbus, OH 43216-5000

(ii) For solicitation numbers beginning with SPE4; or beginning with SP0 and containing 'T' or 'U' in the ninth position of the PIIN:

Defense Supply Center Richmond
Office of the Competition Advocate
ATTN: DSCR-DU
8000 Jefferson Davis Highway
Richmond, VA 23297-5100

(iii) For solicitation numbers beginning with SPE5; or beginning with SP0 and containing 'T' or 'U' in the ninth position of the PIIN:

Defense Supply Center Philadelphia
Office of the Competition Advocate/General
& Industrial
DSCP-PI
700 Robbins Avenue
Philadelphia, PA 19111-5096

(d) 'Superceding part number.'

(1) The Offeror must indicate that a 'superceding part number' is being offered if the offered item otherwise qualifies as an 'exact product,' except that the part number cited in the AID has been superceded. The Offeror may be requested to furnish data, or provide confirmation through some other means, sufficient to establish that there are no changes in the configuration of the part. However, if such data are unavailable, the Offeror may be required to furnish technical data as required in paragraph (c) for 'alternate products.' (If such data indicate there have been changes in the configuration of the part, the offered item must be identified as an 'alternate product.')

(2) For solicitation numbers beginning with SPE, any data to be furnished with an offer of a 'superceding part number' should be mailed to the buyer at the procuring activity address on the solicitation. (Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)

(e) 'Previously-approved product.'

(1) If the product offered has previously been furnished to the Government or otherwise previously evaluated and approved, the Offeror shall indicate in the space provided below, or through an alternative means in an electronic quoting system, the contract and/or solicitation number under which the product was furnished or approved.

CLIN NR(s) _____ (Vendor Fill-in)
have been previously furnished or evaluated and approved
under contract/solicitation number _____.

(2) If the product was furnished or evaluated and approved by a contracting activity different from the one issuing this solicitation, Offerors are advised that the Contracting Officer may not have access to records of another activity or other information sufficient to reasonably determine the offered product's acceptability. Therefore, in order to ensure that adequate data is available for evaluation, Offerors may elect to furnish with their offer the information

requested by subparagraph (b) or (c) of this provision, whichever is applicable for the offered product. Offerors are advised that if the additional data is not furnished, the Government may not be able to evaluate the offer. (For solicitation numbers beginning with SPE, the information should be mailed to the buyer at the procuring activity address on the solicitation. Uploading the information with the quotation, or including it in the 'Remarks' section, will make the offer a 'bid with exception,' causing it not to be evaluated.)

M15E04 52.215-9I15 EVALUATION OF PAST PERFORMANCE UNDER THE AUTOMATED BEST VALUE SYSTEM (ABVS) PROGRAM - SIMPLIFIED ACQUISITIONS (FEB 1996) DSCP

(f) For all types of offers ('exact product,' 'alternate product,' 'superceding part number,' or 'previously-approved product'), Offerors shall provide the Contractor and Government Entity (CAGE) Code of the manufacturer and the part number being offered for each item in the solicitation.

(g) Failure to furnish adequate data and/or information as prescribed in subparagraph (b), (c), (d) or (e) of this provision (when required for the current procurement) within 10 business days or less, or as otherwise required by the Contracting Officer or elsewhere in this solicitation, may preclude consideration of the offer. For automated procurements, it is the responsibility of the Offeror when offering a 'superceding part number' or a 'previously-approved part number' to ensure that supporting documentation arrives at the contracting activity within 2 business days after the data is requested, or the offer may not be considered. The Agency will make every effort to determine, prior to award, the acceptability of the products offered which meet the dollar savings threshold shown below, and/or which have a reasonable chance to receive an award based on price offered. Generally, the Agency will not evaluate alternate offers not meeting the dollar threshold. The savings potential is based on the cost of evaluation (\$200.00 if only a local technical evaluation is involved, plus an additional \$1,200.00 for each required Engineering Support Activity evaluation). If the Agency determines that an evaluation cannot be completed before the expected contract award date due to urgent requirements for the item, alternate offers will not be considered for the current procurement. Instead, they will be evaluated for technical acceptability for future procurements of the same item, if adequate data is submitted and savings potentials are expected, as stipulated above. For alternate offers not evaluated, the Offeror's complete technical data package will be returned.

(h) If Offerors desire to restrict the Government's use of data submitted for evaluation, the data must bear the appropriate legends as prescribed by FAR 52.215 1(e). In the event an award is made to an Offeror submitting data without the appropriate legend, the Government will have unlimited rights to its use as defined in DFARS 252.227 7013.

(i) It is the Government that determines if the documentation or other evidence furnished by an Offeror is adequate to satisfy the requirements in this provision. If the Contracting Officer requests evidence from a Contractor who received an award resulting from this solicitation, and the Contracting Officer subsequently finds the evidence to be unacceptable, the award may be cancelled.
